"Virtual School" means any school or educational program that: (1) Is offered for credit; (2) uses distance-learning technologies which predominately use internet-based methods to deliver instruction; (3) involves instruction that occurs asynchronously with the teacher and pupil in separate locations; (4) requires the pupil to make academic progress toward the next grade level and matriculation from kindergarten through high school graduation; (5) requires the pupil to demonstrate competence in subject matter for each class or subject in which the pupil is enrolled as part of the virtual school; and (6) requires age-appropriate pupils to complete state assessment tests.

 (Page 1, Line 7 total students eligible for Free Lunches) / (Page 1, Line 3) = $80 + 0 / 169 =$ **47.30%** = 47.30%
2. District's calculated free lunch percentage for the prior year (info only) = 38.90%

ADDITIONAL DEFINITION FOR SCHOOL FACILITIES (Must use a minimum LOB listed below to qualify for this provision.)

a) School Facilities Definition - School facilities weighting is available for school districts whose adopted local option budget (LOB) is at least 25% for 2014-15 and have constructed an entirely new facility or an addition to an existing facility. Only eligible to schools that had bond issue prior to July 1, 2014 and bond money was used for construction of new facilities or new schools that were built primarily with federal funds on a military reservation located on USD 207 or USD 475.

The determination of weighting will be based upon the number of full-time equivalent (FTE) students that are enrolled and attending in the new facility September 20 (and February 20 for districts qualifying under K.S.A. 72-6448). In the case of school districts that have constructed an addition to existing facilities, the number of students that are enrolled and attending in the new addition will be counted on a full-time equivalent basis (see example 2.) The additional weighting for this provision of the law is applicable for two years only. For a new facility, the FTE is for the entire building (see example 1). For additions to an existing facility, the following calculating would be utilized.

Example #1: (For new buildings.)

For a totally new constructed building, the FTE equals the total enrollment FTE for that building.

| | <u>Headcount</u> | | <u>FTE</u> | |
|------------------------|------------------|--|------------|---|
| Kindergarten | 77 | | 38.5 | |
| Grade 1 | 87 | | 87.0 | |
| Grade 2 | 81 | | 81.0 | |
| Grade 3 | 75 | | 75.0 | |
| Weighting for example: | | | 281.5 | $\times 0.25 = 70.4 \times \$3852 = \$271181$ |

Example #2: (For new additions)

Total number of students in each new classroom _____
 Number of class periods (divide by) _____
 Full-time equivalent enrollment = _____

| | | | |
|----------|-------------------|------|----------------------|
| Example: | New classroom A = | 105 | students for the day |
| | New classroom B = | 154 | students for the day |
| | New classroom C = | 133 | students for the day |
| | New classroom D = | 121 | students for the day |
| | TOTAL = | 513 | |
| | divide by | 7 | class periods |
| | = | 73.3 | FTE |

Weighting for above example: $73.3 \times 0.25 = 18.3 \times \$3852 = \$70492$

Qualifying for New Facilities Weighting

In order to qualify for new facilities weighting, a district must have adopted at least a 25% local option budget. Only eligible to schools that had bond issue prior to July 1, 2014 and bond money was used for construction of new facilities or new schools that were built primarily with federal funds on a military reservation located on USD 207 and USD 475.
